

2m Square Arch

Stage 1

There are 5 parts to this arch. Unwrap the parts and lay on the floor as in the photo

Stage 2

Insert the 2 upright frames that have corner angles, into the bases and tighten the wingnuts to secure to the base.

Stage 3

Insert the cross bar into the corner angles. Extend to the width you require and tighten the wingnuts.

Stage 4

Raise the uprights to the required height and tighten the wingnuts.
